ANDOVER MILL BURNED.

One of Two at Plant of Case Board Company Consumed Quickly During Saturday's High Wind.

One of the two mills of the Case Board company at Andover was des-troyed by fire early Saturday morn-ing. The fire was discovered at 4.30 in the drying room by men who had been working all night in the mill. Because of the high wind the entire structure was soon in flames. Use was made of the Congregational church bell and telephone to summon A number were quickly on ground, but owing to the severe and wind little could be done to save the mill. The men directed their to save the other mill which

profitable.

unable to tell jest what the damage would be but it will be in the thousands. It is not known whether the machinery can be used again or not. The factory will be rebuilt as soon as possible, weather permitting. There was very little finished material in the place of the state o the place as business had been very brisk of late. About twenty-five hands are employed. The loss is partially covered by insurance.

SECOND FLOOR FIRE. At the Home of Aaron Peck on Willowbrook Street.

An alarm was rung in from Box 71 Saturday night calling the fire de-partment to a house at 87 Willowbrook street owned by Aaron Peck. The blaze was a small one and was ex-tinguished by Mr. Peck before help arrived. It was discovered on the sec ond floor near the chimney and is thought to have been caused by a cigar butt or a match. The damage was slight; a hole about 15 inches in diameter being burned in the floor.

WEATHER OF ALL SORTS. More Varieties of Climate and Tem-Mr. Case stated Sunday that he was perature Saturday and Sunday.

> Mark Twain was about right when ne said "that we don't have weather in New England, we have changes." Different people like different kinds of veather, but there have been so many kinds that it seems as though every one must have had his or her kind sometime during this month. Although the mercury did not go down to the zero mark, Saturday was considered by most people to be the coldest day of the season. The wind was bitter and piercing and penetrated even the thickest garments. Hat chasing was the principal outdoor sport; one or two women taking part. The wind let up Sunday, but it snowed just enough to cover the slippery places, making walking danger-

wanton destruction of forests, mines and animal life. Conservation multiplies the by-products of industry, and changes waste into profit. It is conservation that turns rags into miladi's dainty note paper.

of our country, and forbids

It is conservation that gathers together worn out garments, discarded sheets, carpets, and similar objects which have served their useful purposes. In the General's big roofing mills, these are mascerated, saturated, sterilized and beaten into pulp, which finally comes out of the rollers in one continuous sheet of clean, strong roofing felt.

It is then thoroughly saturated with the General's own blend of soft asphalts and coated with a blend of harder asphalts, which keeps the inner saturation soft and prevents the drying-out process so destructive to the ordinary roofing. This explains why

Certain-teed Roofing

out-lasts other roofing; also why the General can safely guarantee it for 5, 10 or 15 years, according to ply Experience has proved that CERTAIN-TEED will out last the period of guarantee. The General makes one third of all the rolls of roofing made

in America. Because of this enormous production, and the

economies due to cheap power, modern machinery and favorably located mills, the General is able to make the best roofing at the lowest cost. CERTAIN-TEED is made in rolls; also in slate-surfaced shingles. There is a type of CERTAIN-TEED for every kind of building, with flat or pitched roofs, from the

largest sky-scraper to the smallest

residence or out-building. CERTAIN-TEED is sold by responsible dealers all over the world, at reasonable prices. Investigate it before you decide on any type of
